VISION SOLUTIONS FOR DOMESTIC INDUSTRIAL AND COMMERCIAL APPLICATIONS

SVS Australia is wholly Australian owned and operated. SVS is a specialist supplier in vehicle vision systems that are designed to improve both safety and vehicle operations through a comprehensive range of quality vision products. The SVS range has been designed to offer complete vision solutions for all vehicle types ranging from recreational through to heavy duty commercial and industrial applications, allowing the user to customise the solution to meet with their specific needs.

The SVS 100 Series range is perfectly suited to domestic, recreational and commercial applications such as overcoming blind spots typically present with SUV's and 4WD's as well as improving safety and vehicle operations generally associated with hooking up and reversing trailers, caravans and boats. The 100 series range boasts a broad range of monitors and cameras to provide great vision and neat integration into most vehicles.

Drivers in accidents often get into a 'blame game' and the accident investigators are left to sort out who is at fault. SVS vehicle recorders, record what happened in the critical seconds before, during and after the accident including travelling speed, date, time and GPS overlay. The video record generated provides strong evidence and may assist in proving your innocence. SVS recorders also include a range of recreational and in car recorders for the personal user.

SVSMDVR - MOBILE DIGITAL VIDEO RECORDER

Want to record what your cameras are capturing? Then our range of MDVR units can seamlessly integrate with up to an 8 camera system to record data that can be viewed remotely in real time, viewed from the removed HDD or copied as required to keep essential data safe. MDVR features include GPS tracking, 3 Axis G-Force sensors, Date/Time, Speed and 8 event logs with 2 relay outputs to allow the system to perform and record as needed.

SVS can provide a vision system and mobile recorder capable of handling the harshest of environments – take a look at www.svsaustralia.com for more information.
