SVS100NCC Number Plate Camera – Chrome

Product Information

SVS are proud to introduce their Number Plate Camera that directly installs on the license plate, utilising the original screws.

This chrome unit features an adjustable bracket to achieve the optimal viewing angle, making it suitable for a range of vehicles.

With an image angle of 150 degrees and a night vision distance of up to 5 meters, this Number Plate Camera delivers more of the image across various driving conditions.

Features

- **Installs directly onto licence plate**
- **Chrome plated**
- **IP69K ingress protection rating**
- **Up to 5 meters night vision**
- **Adjustable bracket for optimal viewing position**
- **150° viewing angle**
- **4 pin moisture proof connector**
